The Basics of Receiving, Reviewing, Processing and Certifying Statewide Petitions

Updated December 3, 2013
Processing Petitions

For a step-by-step walk through on setting up and processing statewide petitions in MT Votes and sending them to the SOS office, go to the website: [http://sos.mt.gov/Elections/Officials](http://sos.mt.gov/Elections/Officials).
Receiving Petitions

- Every sheet or section of up to 25 petition sheets submitted together must be accompanied by a signature gatherer affidavit.

- If affidavits are submitted at the bottom of a pile of petition sheets, contact the sponsor or signature gatherer to have them sort them out.

- You do not have to sort out which petitions belong with which signature gatherer – this is the responsibility of the sponsor and signature gatherer.
Affidavit of Petition Signature Gatherer

An affidavit must be attached to each sheet or section submitted to the election administrator. Separate sheets of a petition may be fastened to this affidavit in sections of not more than 35 sheets.

Affidavit Filed with Election Administrator

(printed name of person who is the signature gatherer)

I swear that I gathered the signatures on the petition to which this affidavit is attached on the stated dates, that I believe the signatures on the petition are genuine, are the signatures of the persons whose names they purport to be, and are the signatures of Montana electors who are registered at the address or have the telephone number following the person’s signature, and that the signers knew the contents of the petition before signing the petition.

Date on which the first signature attached was gathered

(Do not sign on the line below before gathering the signatures on the petition(s) that you attach to this affidavit.)

**IMPORTANT INSTRUCTIONS TO PETITION SIGNATURE GATHERS:** (1) Note that for petitions on the Internet, the petition language and format may not be modified; (2) please collect voters' signatures from only one county per sheet; (3) note that only the signatures of registered voters qualify; (4) sign, notarize and attach an affidavit of signature gatherer to the petitions (up to 25 petition sheets, from the same county, can be attached to one affidavit); and (5) send petitions to county election administrators as soon as possible.

COUNTY: Lewis and Clark
Reviewing Signatures

See preceding sample petition signature sheet for examples of issues with signatures on petitions:

1. If the signature and other identifying information on the petition is illegible, the signature cannot be counted.

2. If the signer is not registered to vote in Montana, and in your county, the signature cannot be counted.

3. If, for example, the person signed their registration card with their full name, but signs the petition with initials and their last name, count it if the signature taken as a whole is sufficiently similar to the one on file.
Additional issues with signatures on petitions...

4. If the signer provides neither an address nor a telephone number (one or the other must be provided), the signature cannot be counted.

5. If the signer has already signed the same petition (duplicate signature), the second signature cannot be counted. MT Votes will flag a duplicate signature.

6. If the signer provides a residence address but not the city or town, you can still count the signature unless there is another reason to reject it.
Reviewing Signatures (continued)

- Additional issues with signatures on petitions . . .

7. If the signer is registered in a different county than your county, the signature cannot be counted.

8. If the address or phone number provided by the signer does not match the one on file, but the signature matches and there is no other reason to disqualify the signature, you can still count the signature.
Reviewing Signatures (continued)

- Check each petition signature against the signature on file.

- You should not accept a petition signature if, after your best efforts at signature verification, you believe it does not match the signature on file.
You do not accept the signatures of provisionally registered electors, since they are not legally registered.

1. When you check a signature, MT Votes will show provisionally registered electors, but they are flagged as provisionally registered.

You accept the signatures of inactive electors, since they are legally registered.

1. You do not automatically activate them, although you can send them a voter registration application in order to assist them in activating.
Processing Petitions

- When you receive petitions, keep them in the order that you receive them.

1. An exception is when you receive petitions and need to separate out certain submittals due to issues with the attached affidavits.

- In MT Votes, be sure to process as one submittal each petition sheet or section of up to 25 sheets submitted with one affidavit.

1. When you come to a new affidavit, even from the same signature gatherer, process it as a new submittal.
Certifying Petitions to Secretary of State

- Complete and send PM-009 petition certification report to the SOS. (See screen shots that follow this slide).
