MONTANA SECRETARY OF STATE

Voting System Certification Testing

ES&S EVS 5.2.2.0 | State Capitol-Room 152

September 21, 2017 | 9:00AM

Election Systems and Software (ES&S) has applied for certification of software and tabulator upgrades for use in Montana. This [federally certified](#) voting system introduces a new ballot tabulator and includes software updates for two tabulators currently used to count votes in Montana's elections. Software updates to the AutoMARK—a ballot marking device used by voters with disabilities—are also included.
